CIRCULAR.

WE call the attention of Furniture Men and Merchants generally to the within styles of Store or Counter Stools. The Standards are made of Iron, painted Green or Maroon, and nicely ornamented with Bronze. The top revolves on the pointed end of the shank, thereby causing them to move smoothly, and avoiding the grating and squeaking noise made by Stools where they set on a square shoulder.

The Seats are made in the different manner, as per the description of each Stool.

In ordering, be particular to give the number of style, color, &c. We charge for boxing as follows:

From 3 to 6 Stools, ... $ .60
From 6 to 12 " 1.00

Orders promptly shipped, and lowest rates of freight obtained.
